

Ennis Businesses Working Together for a Bright Future

The changes forced upon all of us by Covid-19, in our personal, work and business lives have been seismic. Hopefully, much of the hardship is in our rear-view mirror, we can look forward.

We expect a few bumps on the road over coming months, but armed with positivity, we have come together as a group to focus our efforts on a bright future for Ennis, the town we love.

It is easy to see problems, but much harder to find solutions, however solutions and positive thinking are at the heart of this group. Prior to lockdown, members of Promote Ennis raised funding and appointed Ennis-based Repucon Consulting, to create a Niche Destination Plan. When Covid came along the team at Repucon were asked to pivot the plan towards recovery, with input canvassed from a wide variety of Ennis-based businesses.

During the recent lockdown, this group has busied itself planning for the town's post-Covid reopening. We have appointed a web design company to create an Ennis Portal to drive overnight visitor numbers, day visitors and shoppers, to provide an information resource for residents and to attract investors. In tandem with the launch of the new portal we will recruit a dedicated digital marketer to promote Ennis. And that's just the start. Over the coming months we look forward to launching new initiatives and events and to sharing those details with you.

As businesses we know that to survive and thrive, we must embrace change and work collaboratively in the best interests of our town. We thank those businesses who have stepped on board to invest in the future of our town. We thank the administrative staff at Clare County Council and the elected members of Ennis Municipal District for their funding and support.

To our customers, we look forward to seeing you and serving you once more. Thank you for your support and continued loyalty, we really appreciate it. For our part we promise to continue to work hard to deliver excellent customer service, to keep you, our customers safe and to preserve the integrity of our beautiful town. We hope we can rely on you to be our ambassadors by championing Ennis locally and wherever you go in the world, and when posting on social media please use the hashtag: #EverybodyLovesEnnis

Here's to a bright future.

Ennis, a great place to visit, live and work.
